VOLUME 8

WAVELEY, IOWA, SATURDAY, JANUARY 30, 1943

NUMBER 8

198 STUDENTS REGISTER FOR SECOND TERM

Enrollment Feels Effects of War; New Courses Added

A decided drop has occurred in the decreased enrollment. Eight students less than the first term. Those returning for another semester total 198, while the enrollment at the beginning of the present school term was 237.

Various reasons contribute to the drop. The first is the fact that students left Wartburg at the close of the semester to take up work at the seminary at Dubuque, Iowa. Several students will begin teaching at the seminary at Wartburg. Then also several new students have been called into the service during the course of the first semester.

Two new courses are being introduced to Wartburg students this semester. Also, Rev. Conrad Becker, director of the Children's Home in Waverly will teach a new course, "Introduction to Social Work." Fourteen students announced their intentions of taking a course in mathematics. In the mathematics department, Prof. W. Roeloffs has added a refresher course in mathematics, which will give the pre-engineering students an opportunity to get credit for the first semester of high school algebra. However, this course is open to all students who wish to take it.

Concerning the effect of the war on Wartburg, Dr. J. H. Braulick expressed this thought: "The present world conflict has brought to change everything at Wartburg college. The administration and the faculty, however, that they are able to teach and learn in a Christian school, will be glad to give up this opportunity in favor of our country."

8 BOYS LEAVE AT SEMESTER FOR DUBUQUE

At the close of the first semester, eight Wartburg students left to enter the Wartburg Theological seminary at Dubuque. They had completed their first semester of study and were ready to begin the second semester of study. They will be back in the fall to begin the third semester of study.

Among those who have left are: Lawrence Kimpfe, who was a member of the Pre-The society, and a member of the choir.

Whitney Frank was elected to the Wartburg club, and a member of the Pre-The society.

Orville Kalkwarf was a member of the club of the Student society, of the Pre-The society, and active in intramural basketball.

Our variety football team will consist of 1923 captain, Fred Schaefer, who was elected to the first team of the Iowa conference as offensive tackle, besides this was a member of the student senate, and a member of the Pre-The society.

Arnold Schluter was a member of the Pre-The society, the student body has lost its president with the departure of Harold Smith, a member of the student body, active in intramural basketball, and a member of the Pre-The society.

Sylvester Schreimuller was a member of the Pre-The society, the student body, and active in intramural basketball.

Reading Group May Be Formed Here

Tentative plans have been drawn up for the organization of a group which would feature the oral reading of plays and poems. The group would meet once a month to read and discuss the best of the dramatic literature. The program would be entirely informal. Anyone who is interested in joining the group should see Miss Dorothy Becker in the near future. The program is not yet formulated—all depends upon you.

Lieutenant Ludmilla Pavlichenko, a Russian woman, is reported with killing 300 Nazis, has been made an honorary student at the University of Michigan.

New Instructor

ESTELLE TANDY

TANDY TO TEACH HOME ECONOMICS

Takes Place of Mrs. Hodgman Who Left for California.

Miss Estelle Tandy, above, of St. Louis, Mo., arrived at Wartburg last week-end to become the new instructor in home economics. She will fill the position vacated by Mrs. Charlotte Kyring Hodgman, who resigned her position to join her husband who is employed by the North American Aviation company in Indianapolis. Miss Tandy received her B. A. degree from the University of Missouri in 1932 and her M. A. degree in 1932 from Columbia University, New York City. She has had previous experience as a professor of home economics in the Western Maryland college, Westminster, Md.; Northern Illinois State Teachers college, DeKalb, Ill.; and State Teachers college, Ellendale, N. D.

Matthias Takes Teaching Position

Ruth Matthias, Waverly, Iowa, at the close of the first semester, completed her work for a four-year teachers certificate with the home economics major, and has already accepted a position at Bonadura, Iowa.

Along with her Home Economics certificate, Miss Matthias will teach biology and general science. She carried a science major at Wartburg. Ruth has been active in choir, W. A. A. dramatics, and for the past semester has held the job of business manager of the Wartburg Trumpet.

SOO YONG WILL APPEAR FEB. 18

Noted Chinese Actress Will Speak Here on Artist Series Program.

Soo Yong, noted Chinese actress, will appear on the Wartburg Artists Series Thursday, Feb. 18, as the third number on the current series of programs.

A true cosmopolitan, Soo Yong was born of pure Chinese blood. She graduated from the University of Hawaii, and then studied in New York where she received her Master's degree from Columbia University.

Soo Yong made her Broadway debut with Katherine Cornell in the play "The Rainy Day" in New York. She has since moved herself to American audiences and has been a great success.

When Hollywood beckoned, Miss Yong went and played the role of "The Rainy Day" in "The Good Earth," a film of distinguished actresses competing for two of the most exciting character roles, the Ancient and the Modern—both went to Soo Yong.

In the past few years Soo Yong has delighted audiences all over the country with her original personality. She is the only Chinese woman melodist. "As lovely as a priceless piece of jade" is the way one critic has described her. When she appeared on the Detroit Town Hall, she was so well liked that she was given a standing ovation. She was so well liked that she was given a standing ovation.

Her act is fascinating; her humor is irresistible. Her voice is like music. Her appearance is a delight to the eye.

She will appear in Waverly on the Wartburg college Artists Series on Thursday, Feb. 18, in St. Paul's auditorium.

Tentative Choir Concert Schedule

Because the usual extended tour of the Wartburg College Choir has been canceled, the public appearances of the choir, under the direction of Prof. E. Liebmohr, have been limited to concerts in the vicinity of Waverly. The tentative schedule for concert appearances is as follows:

- Feb. 7, 2:30—High School Auditorium, Nashua, Ia.
- 8:00—St. John's Lutheran Church, Charles City, Iowa.
- Feb. 14, 2:45—High School Auditorium, Redwin, Ia.
- 8:00—High School Auditorium, Oelwein, Ia.
- Feb. 21, 2:30—St. Peter's Lutheran Church, Denver, Iowa.
- 8:00—East High Auditorium, Waterloo, Ia.
- Feb. 22, 8:00—Immanuel Lutheran Church, Independence, Iowa.
- Feb. 28, 8:00—St. Paul's Parish House, Waverly, Ia.

Les Moeller Describes Coming Effects of War

Local Editor Gives His Views on What Americans Face

Leslie Moeller, editor of the Independent and Democrat, two local newspapers, spoke to the students and faculty of Wartburg in convocation Tuesday, Jan. 20, on the problems which Americans must face now and after the war.

Moeller, an "undergoing drastic changes," it is impossible to change to a wartime economy without minor sacrifices by the individual. He stated that any loss of rights would be temporary, and we should be ready for any sort of change to our economy which may take place in the future. One of the greatest blows to our economy will be the loss of the armed forces by the end of 1943.

A Long War. "We should prepare for a long war," continued the speaker. "It will last at least two years longer, mainly because of our lack of shipping in order to win that war we must have a mass invasion of the continent. This will be impossible for another year."

The end of the war doesn't mean a return to normal, he added. We must maintain rationing as long as the war lasts. At the end of the year and a half after the end of this struggle. But after it is over, we will lose the benefits from the new discoveries, and increased production. We must realize that social upheavals and international problems, especially racial and nationalistic.

Our Goals in War. Mr. Moeller concluded by defining our goals in this war. "We are fighting for an orderly world. We must realize that it is no longer possible for us to say that the

conditions in the rest of the world are unaffected."

It is necessary for us to realize that in all our relations we need a return to Christianity. We must change Christianity from its position of a religion to a religion to a constant vital force.

OSINUP TELLS OF POISON GAS

Lieut. Paul Osinup, who attended Wartburg about two years ago, and who is now in the medical corps of the army, stopped at the campus Wednesday to see his former chemistry professor, A. W. Sygeness.

Os the students who were working in the laboratory at the time. Lieut. Osinup told and showed vivid proof of the physiological effects of mustard and Lewisite gas of small concentration, and also of the effectiveness of the antidotes for these poisonous gases.

On Lieut. Osinup's left arm were two brown spots, the result of the application of one-fourth of a drop of mustard gas. The one area was not treated and became blistered and red. The other area was treated with the army specific for mustard gas, and the result was that the skin only darkened due to an increase of pigmentation. On his right arm a similar dose of Lewisite gas gave these interesting results. The area was untreated and had blistered upon whatever portion of the body it came in contact. The second area, treated with an anti-perhydrazine peroxide, showed no effect at all. The Lieut. said he wished to protect them from gas attacks in the field. He told of his experiences during his training on the east coast that were discussed as restricted information.

Lieut. Osinup also explained the devices that our troops are using to protect them from gas attacks in the field. He told of his experiences during his training on the east coast that were discussed as restricted information.

WILL THIS BE SUPERCEDED?

Trustees Prepare Way For Field House Drive

Now Sergeant

Col. Don Tornquist, former Wartburg speech and dramatics teacher, now stationed at Camp Crowder, Mo., has been promoted to the rank of sergeant.

Don writes that among his new special privileges is the opportunity to keep his light on in his barracks just as long as he wishes. Lights out at nine o'clock every night gets rather monotonous after the first several weeks. He felt Sgt. Tornquist serves as a clerk in the motor trucking division of the Quartermaster corps and has been working as many as 14 hours a day.

His present address is Sgt. Don Tornquist, Motor Trucking Division, Quartermaster Corps, Camp Crowder, Mo., U. S. Army.

DON TORNIQUIST MADE SERGEANT

Col. Don Tornquist, former Wartburg speech and dramatics teacher, now stationed at Camp Crowder, Mo., has been promoted to the rank of sergeant.

Don writes that among his new special privileges is the opportunity to keep his light on in his barracks just as long as he wishes. Lights out at nine o'clock every night gets rather monotonous after the first several weeks. He felt Sgt. Tornquist serves as a clerk in the motor trucking division of the Quartermaster corps and has been working as many as 14 hours a day.

His present address is Sgt. Don Tornquist, Motor Trucking Division, Quartermaster Corps, Camp Crowder, Mo., U. S. Army.

MYSTERY MOVIE TO BE SHOWN TONIGHT

"The Man Who Lived Again," a mystery movie will be shown tonight at 7:30 p. m. in the social room of Wartburg hall.

Admission will be five cents per couple, or five cents per single admission.

HELEN RICE GIVES ORGAN RECITAL

In the recital hall in Old Main, Helen Rice, soprano, from Clinton, Ia., Ill., was presented by her teacher, Prof. E. G. Hest, in an organ recital Sunday, Jan. 10. The concert was open to the public and was well attended.

The program was as follows:

- I. Fantasia (Stanley).
- Two Preludes (Bach).
- Chorale Prelude, Jesu, Joy of Men's Desire (Bach).

- Sonata in C Minor, Op. 56 (Gulnani).
- III. Shepherd's Flute (Christiansen).
- Shops (Ashford).
- A Memory (Debussy).
- March in A (West).

Ward received from the members of last year's graduating class, who were placed in the chemical industry, indicates that all of them are succeeding in their work and are a distinct credit to Wartburg college.

The Safety Process company of Haverhill, Va., was awarded an Army and Navy "E" for excellence in production of explosives and toxic gases. The winning chemists were included in this award. They are George H. H. and camp of Los Angeles, Cal. Mel McGee and Waverly, and Erwin Nischel and Center, Minn.

These three chemists, together with Richard W. Smith, who employed in the research department of the DuPont company laboratory at Washington, D. C., and Romyne Briner, who is a research chemist with the U. S. Powder Co., Stamford, Conn., have all received substantial increases in salary since beginning work last summer.

In a recent letter to Prof. A. W. Swenness, Dr. J. A. Conway, chief chemist of the Atlas Powder Co., said to Briner:

"Replying to your letter of Dec. 11, we are happy to report that Mr. Romyne Briner has made a splendid record during his six years and six months with us."

He has attacked the problems assigned to him with vigor and a man who so quickly adapts himself to new surroundings and new equipment.

"Please accept our thanks for your kindness in bringing Mr. Briner to our organization."

Old Gym Would Be Used for Library or Campus Chapel

We've all heard the phrase, "a greater Wartburg." We've heard it many times in the past. Now, a plan for a field house, for an addition to Luther hall, for improvements on Old Main. We've heard about these, but very few students or alumni know what is really being done.

A Greater Wartburg committee, consisting of Rev. and A. G. Breche of Davenport, chairman, Prof. A. W. Swenness, secretary, and Rev. Theo. Fritzsche of New Hampton, has formulated a very concise and detailed, long-range plan for the future, "Greater Wartburg." From these plans, the Board of Trustees of the American Lutheran Church has OK'd the plan for a new field house—a plan to be built somewhere near the athletic field.

For six years already the present main building has proved inadequate, for since 1937, when Wartburg joined the Iowa conference, all intercollegiate basketball contests have been played on the main building. The gymnasium must be rented for each game.

With the steadily increasing enrollment of the college, the physical education facilities have become even more crowded. Even with the main physical education program divided into four classes, the dressing room facilities are still wholly inadequate. The boys stand in line to take showers, must push and shove to get benches room to sit and dress. None have dressing room facilities. They are introduced to conserve space. Our football, basketball, and baseball teams, with their twenty changes together in the lockers. There are no facilities for the women at all. They must dress in the gym, work out, and then dressing, run back to the dorms, and take their showers and then sweat.

The new field house—auditorium, with a large floor and spacious dressing rooms, would solve all these problems. It would have modern, adequate facilities for a complete physical education program.

The present gymnasium, built in 1912, is a very old building and alumni of Wartburg College, has served its purpose well. With the new field house, the athletic program, the gymnasium, and the chapel, as well as a chapel, or as a library.

The Church has given this project the approval of the board of trustees. The actual building cannot be started until after the war, now is the time to plan for the future. Friends of Wartburg at Clinton, Iowa, and at other places, the Academy, Eureka Lutheran, and Reform, to line up firmly behind the project.

They are well attended. The program was as follows:

I. Fantasia (Stanley).
- Two Preludes (Bach).
- Chorale Prelude, Jesu, Joy of Men's Desire (Bach).

Sonata in C Minor, Op. 56 (Gulnani).

III. Shepherd's Flute (Christiansen).

Shops (Ashford).

A Memory (Debussy).

March in A (West).

Ward received from the members of last year's graduating class, who were placed in the chemical industry, indicates that all of them are succeeding in their work and are a distinct credit to Wartburg college.

The Safety Process company of Haverhill, Va., was awarded an Army and Navy "E" for excellence in production of explosives and toxic gases. The winning chemists were included in this award. They are George H. H. and camp of Los Angeles, Cal. Mel McGee and Waverly, and Erwin Nischel and Center, Minn.

"Replying to your letter of Dec. 11, we are happy to report that Mr. Romyne Briner has made a splendid record during his six years and six months with us."

He has attacked the problems assigned to him with vigor and a man who so quickly adapts himself to new surroundings and new equipment.

"Please accept our thanks for your kindness in bringing Mr. Briner to our organization."

The necessary funds can be raised now.

The Wartburg synposium, which for years has served the physical education needs of Wartburg to the best of its limited capacity, may be transformed into a school library. The plans of the "Greater War-

burg" committee are carried out. The board of Trustees of the A. L. C. OK'd plans for a field house auditorium to be erected after the war if the necessary funds can be raised now.

ALUM

We wind up again for another report on our "lost, stolen, or strayed"—perhaps more to the point, "married, transferred, or commissioned" Wartburgers.

The arrival of Gerald Faber-bus (47-39) is p. m. 2-c. U. S. Navy Air Station, Mts. 3, Dispensary, San Diego, Calif.

Pvt. Carl Sager (36-37), formerly of Denver, arrived the day before Christmas to visit his parents, Mr. and Mrs. Geo. Sager. Carl is stationed at Camp Stewart, Ga., and had a four day furlough.

Marvin D. Stumaf (38-39) was graduated from the wheeled vehicle department of the armored force school at Ft. Knox, Ky., and has received a diploma as a qualified automotive mechanic.

Ensign John Mosier (38-39) is located at the U. S. Naval section base at Galveston, Texas, and is staying at Ft. Chi medical fraternity house until barracks are completed for the officers.

Rev. Rudolph Troelmann (28) of the Lutheran Mission in Madang, New Guinea, writes that he is well, busy, and happy. His mission work is prospering as never before in an island of war-torn New Guinea.

Pvt. Dick Hettr (41) is stationed at O. M. C. Det., Camp Lake Pando, Colo.

The Becker twins, Arnold and Harold (42) have been transferred from Ft. Bragg, North Carolina to CFC, Class No. 51, Officer Candidate School Fort Sill, Okla.

Lieut. Paul F. Radue (35-39) was married in Waverly Monday, Jan. 4, to Miss Violet Hess. The young couple left Waverly Tuesday evening for Enid, Okla., where Paul is stationed at the army flying field. He received

his commission in the air corps Sept. 8.

Miss Dorothy Pichelmeyer (46-41), daughter of our illustrious Superintendent of Buildings and Grounds and Lieut. Alfred Frauke (41) were united in marriage Sunday evening, Jan. 17. The bride and bridegroom left for a short honeymoon trip after which Lieut. Frauke is to report to Washington, D. C. for further orders.

Ensign John Moodle (38-39) is scheduled to begin active service aboard a sub-hunter soon. He will work out of Galveston where he has been stationed since he was commissioned this winter.

Jim Merson (42) who had been hired as commercial teacher in the Nashua high school, received a call to report at Kansas City, Mo., for induction into the service. He was in the air corps reserve. He will probably receive further training either in California or Georgia.

Pvt. Arthur Neumann (39) had been transferred from Camp Dodge, Des Moines, to Atlantic City, N. J., where his new address is 37930008, Flight D, Group 1, Room 519 Atlantic City, N. J.

Miss Norma Grover became the bride of Russell Walther (40-41) at a ceremony performed at St. Paul's Sunday afternoon, Jan. 17. The wedding was held at the present on a farm near Waverly.

Pvt. J. T. Paez (35-40) has been transferred from Camp McCoy, Wis., to Med. Sec. 1603 S. U. Ft. Custer, Mich.

In a recent letter, Pvt. Harvey Schiller, (42) of Camp Cavalry, San Diego, Calif., states that he has completed his basic training and is enroled at an Enlisted Specialists' School, training to be an administrative clerk.

Miss Anita Pafelt (41-42) was working in the Cedar Rapids office of the U. S. Dept. of Agriculture, has moved from 215 First Avenue to 714 First Avenue, N. E., Cedar Rapids, Iowa.

Word has just been received that Gladys Bair (40-41), cousin of the Bair twins, was married last July 10 to Leon Schoor. The couple are making their home in Danvers, Iowa.

Floyd H. Memmaga, who attended Wartburg one week last fall before being drafted, writes that he is in his tenth week of basic training. The course last week he has learned how to handle and operate three different kinds of army rifles, and a 30 cal. machine gun. Pvt. Memmaga is stationed at Camp Roberts, which is located half way between Los Angeles and San Francisco. The camp is nearly as large as Waterloo. His complete address is Co. A, 89th Inf., Pfc. Bn., Camp Roberts, Calif., U. S. Army.

Lieut. Rudolph (Rudy) Langhals (42), who is stationed with Co. E, 16th R. O. C., Quantico, Virginia, writes, "I was glad to hear that you (meaning Wartburg) were well."

How To Solve Your Date Problem: Watch Charley

At last Charley Mattes has found a way to solve his date problem. Charley has long been known to Wartburgers as the little fellow who would swap anything he owned for a date. He has operated with new sweaters already, we know (in most attractive colors), and his red jacket has been most appealing to the Knights.

But now he has found a way to make the girls come looking to him. As you can see in the above illustration, he is competition for even those big Wartburg bruisers like Scherrie and Mueller. And they are turned! Here they had just found a way they thought to make themselves even more sought after with their big sweaters—"T for Tough"—and here comes Charley with a brand new idea! And a brand new sweater too. Its effectiveness is demonstrated by the way the Wartburg Knights look around—because Charley really had the right idea when he got that defense sweater (and we don't want to scare you, Charley, but with a sweater like that you might need a little defense of your own, from the looks of the way they're mobbing you).

Bob might not like the way Mary admires him, but we advise him to do something popular.

burg) did so well in (at least this time). Wishing you a lot of luck in the future, I have net quite a few Iowa boys out here, some of them being from the "Iowa Conference."

We quote from a recent letter received by one of the faculty members of Wartburg College, dated Jan. 28, 1943: "I had my preflight training at Maxwell Field, Alabama, and then went to the advanced navigation school at Carlisle, Florida, which is run by Pan American. On Dec. 12 I received by commission and wings. From there I was sent to Rosecrans Field here at St. Joseph. Now I'm doing some additional training and waiting to be crewed. When I get crewed on a bomber, I will again be sent to some other base on either coast or foreign duty." Lt. Stanek's address is Hotel Redoubt, St. Joseph, Missouri.

If any of the rest of you faculty members or students receive letters from our former Wartburgers, bring them in to "your truly" and we'll try to print at least portions of them for further student enjoyment.

With notions of love, I remain,
Your Alumni Correspondent, C.P.

By JOKER

And did you hear about the Wartburg meron, that thought a mushroom was one of those dark rooms in Old Main?

And the other moron who moved to the city because there was a war in the country.

Well, folks, time out—but stop in at the Club—it's a typical Wartburg action.

THE CLUB CAFE

Science Club Learns About Mathematics

Mathematics was the theme of the monthly meeting of the Wartburg Science club held Thursday evening, Jan. 24.

The extent to which mathematics is used in the present war was illustrated by Max Waring, sophomore from Strawberry Point, Ia., who discussed the various applications of mathematics in the first of a projected series of lectures.

Leonard Suchland, senior from Muscatine, Ia., then presented the main features of the duodecimal or dozen system of mathematics. This system uses the number 12 as the basis of computation in contrast to our present system based on the number 10. It would make computations easier, more exact, and simpler. For instance, in figuring out the fraction one-third, the duodecimal would be simply 4 instead of 3333 etc. Again, in our present system, it will grow in popularity as more people understand it.

A criticism of the teaching of mathematics in colleges was then reviewed by Vincent LeBahn of Waverly, in his talk entitled "Mathematics in the Emergency." He pointed out the views that there is no use in teaching higher mathematics if the students cannot understand the elementary.

The next meeting of the Science club will be held on Feb. 12. It will be sponsored by the chemistry department.
